go deploy

Virtual Lab Access Information

Event	Access Period	Save Period	Max Launches
M20764C Administering a SQL Database Infrastructure	180	4	Unlimited

---

Important Information

Instructors should familiarize themselves with the go deploy platform prior to starting the class. We have a dedicated Help Center available for FAQ's: https://lab.support.godeploy.com/

The key below should not be redeemed by Instructors. Instructors should request access by using the following link: https://aka.gd/MCT

Our support channel is available 24/7 and you can simply submit a request here: https://aka.gd/support. *Please note that emailing the support channel directly may cause delayed response time as tickets raised using the support form are prioritized.*

The redemption of keys cannot be undone therefore instructors who redeem a key will require the Training Services Partner to purchase an additional key.

Unused keys can be kept indefinitely and may be used for future course deliveries.

Keys do not expire and are only activated once redeemed.

Student Registration

Students will need to register to access our platform by clicking the 'Register' button on the login page of our platform.

Once students have registered they will see the option to redeem the key below.

Product Access Key

Your allocated key, which can be redeemed 5 times is:

CAXBCM
